

FRIDRO

ALL IN ONE PLACE

10/25
Achtech TOOLS
Special offer
valid until: 31.01.2026

Inserts

Designed for high-precision and efficient metal machining.

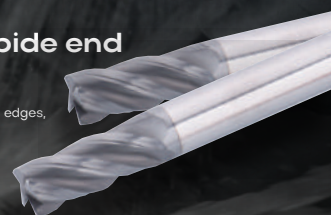

06

Solid Carbide end Mill M200

Eco line with 4 cutting edges, workpiece hardness up to HRC45!

16

Mailling head AHM20

High-quality milling tools and inserts for corefree machining.

19

ACHTECK

New Energy Vehicle Tooling Solutions

Reducer Housing

Application: Face milling

Solution: Custom brazed PCD tools

- Customized to client-specific dimensions.
- Integrated spot facing and chamfering ensures dimensional accuracy.

Application: Joint surface machining

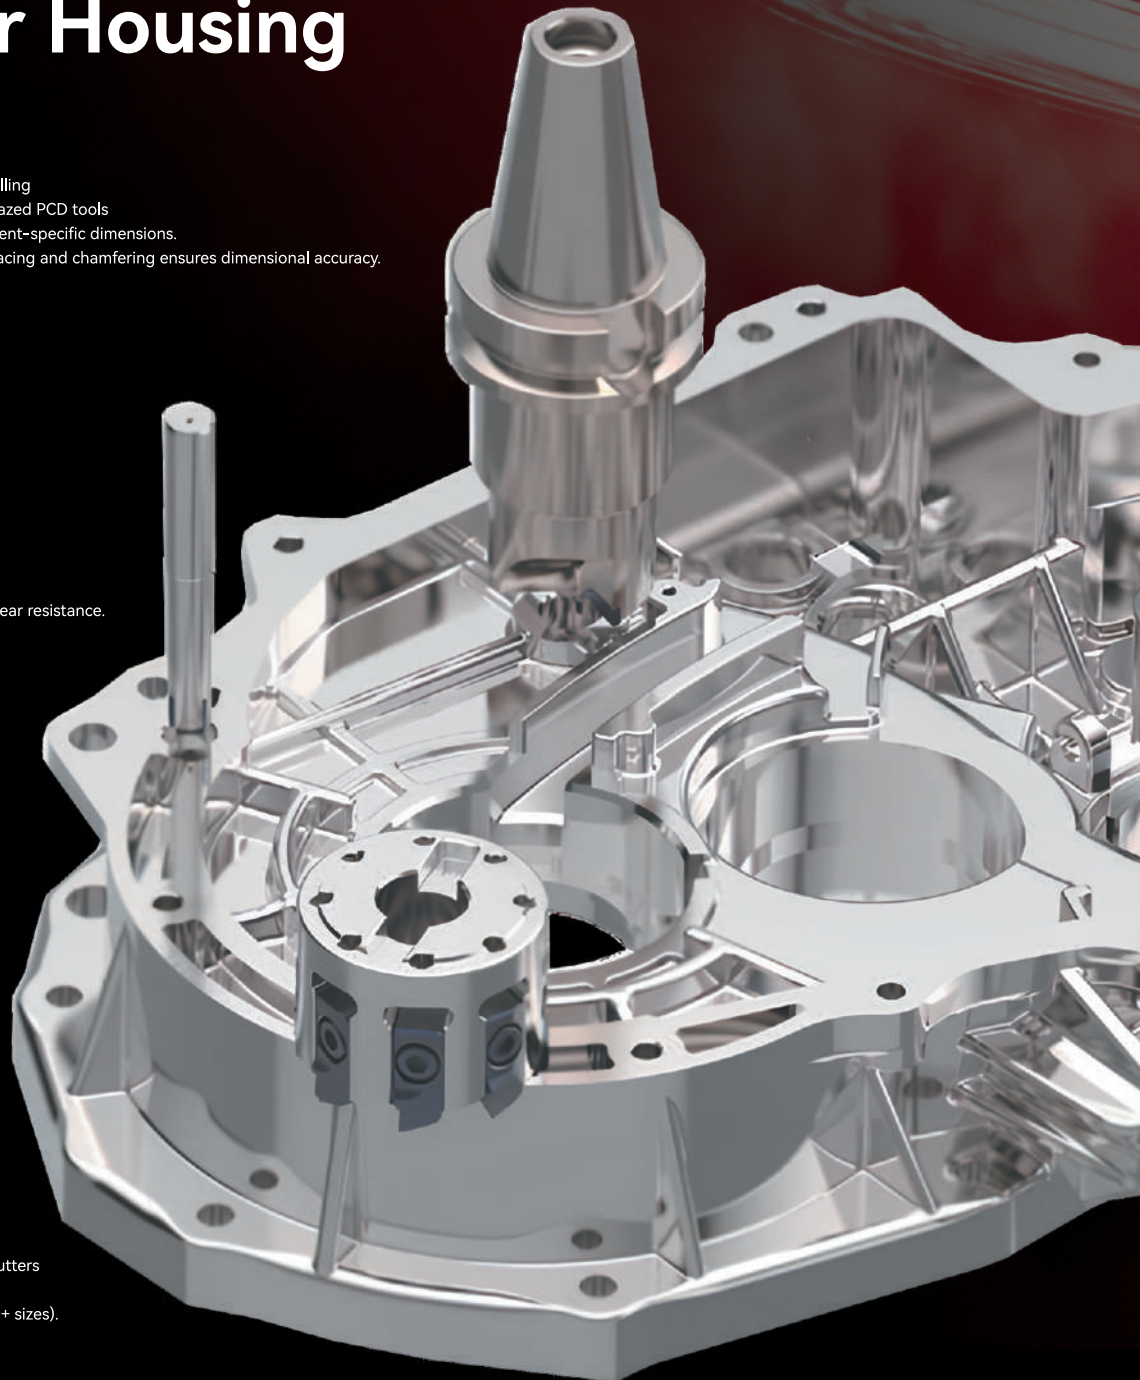

Solution: Brazed PCD reamers

- Semi-custom design for fast delivery.
- PD10 grade delivers high efficiency and wear resistance.

Application: Pin hole machining

Solution: Adjustable PCD face milling cutters

- Bore diameter range: D50–D250.
- Aluminum alloy cutter body (for D80+ sizes).
- Precision internal coolant channels
+ variable pitch design.
- Optional types: face milling,
square shoulder milling, overlapping
curve surface milling, wiper edge.

ACHTECK

More on QR code!

Application: Bearing hole finishing
Solution: Custom fine boring tools

- High rigidity and lightweight compact design.
- Vernier adjustment mechanism for rapid machining size calibration.

Application: Hole finishing
Solution: Custom step drills

- Combined bottom drilling and chamfering in one operation.
- Dual internal coolant holes, to optimize cooling and chip evacuation

2025
NEW

Small tools

Product Features and Applications

- Small tools has a wide range of product offering combined with various grades to meet the machining requests of different applications
- Ground inserts with geometry UF and LF are good for high precision finishing and good chip breaking
- Multi-function ASW series could combine with parting off, backturning and threading inserts for multipurpose machining to reduce the cost
- Small Dia. solid carbide cutting tools can cover different machining, such as grooving, threading and small diameter boring

More models and info on QR code!

Grooving Inserts

Product Features and Applications

* Double edged inserts

- Holder offering included external, internal, face grooving, turning and profile machining
- Inserts width: 2-8mm
- Grooving and parting off geometries: CS, CM, CH
- Grooving and turning geometries: GS, TS, TM, RM, RA
- High precision ground inserts are covering 1-8mm, can be used in parting, grooving and profile machining
- Unique rake geometry design combined with double relief angle on the sides, obtained more clearance in face grooving and internal grooving, so that it could machine bigger diameter

AFM45-SE12 Face Milling Cutter

Product Features and Applications

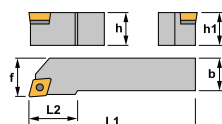

- Positive-rake flute design with large rake angle for smooth cutting and low resistance.
- Multiple geometries adapt to diverse machining conditions.
- Including short and long shank forms for roughing, semi-finishing, and finishing.
- 45° approach angle with course/fine pitch options for broad versatility.
- Integrated stiffener in cutter body, ensuring safety and stability.
- Diameter range: Ø62–250mm (shank-type, cylindrical shank, side-lock shank).
- Black oxide surface treatment enhances corrosion resistance and precision.

ASM90

From Ø10 upwards!

Precise approach angle of 90° and large positive rake angle

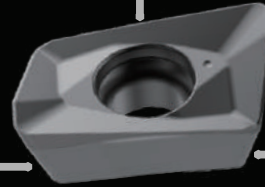

Optimized geometry improves performance

Clean cut reduces cutting force and risk of vibrations

Special wiper design for superior surface finish

Spiral side cutting edge ensures a smooth cut

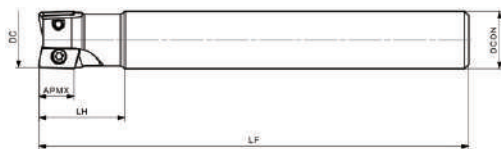

Special edge preparation for extended tool life

Reduced cutting force and thus lower risk of vibrations

SET: 90° Approach angle square shoulder milling cutter + 20 AOMT inserts
